Professional Development

Discovery Education Webinar Series

Whether you're brand new or looking for some new tips, this is your opportunity to learn more about the many products Discovery Education has to offer, from the people who know them best.

Extraordinary Resources

Enhance Your Classroom with the
Largest K-12 Digital Media Library

Discovery Education *streaming's* rich collection of multimedia resources includes:

- › Videos and Video Segments
- › Audio Library of Speeches, Sound Effects, and Songs
- › Images and Clip Art
- › Encyclopedia Articles

More than 4,000 digital videos and 40,000 content-specific segments cover every core subject, and includes foreign-language video content and more than 1,000 closed-captioned titles.

Find Exactly What You Need

Resources are organized to fit today's classroom

Thematic Focus

Explore lessons, activities, and materials organized around a central theme or topic.

Easily Searchable

Discovery Education *streaming* lets users search digital video content by curriculum standard, keyword, subject area, or grade. Or you can search for all new releases or available titles.

Extraordinary Resources

Get Creative with Helpful Online Teaching Tools

Take Control of Your Digital Media

My Content

Keep tabs on Discovery Education *streaming* materials by bookmarking them for later retrieval.

Editable Video Segments

Use the Advanced Search tool to find more than 1,000 Discovery Education *streaming* titles suitable for editing with third-party software such as iMovie, Adobe Premiere, Movie Maker, or MediaBlender. Shorten or lengthen video segments, re-narrate the programming, or incorporate media into student or teacher multimedia projects.

Expand Students' Horizons

Integrate digital media into a broad range of classroom activities.

Calendar

Look month-by-month to see important dates in five core curriculum areas. The calendar also features biographies, health and guidance, and commemorations.

Assignment Builder

Create assignments that students can access and complete through the Student Center.

Extraordinary Resources

Integrate Discovery Education *streaming* Easily

Take advantage of teacher-tested materials

Quiz Center

Use or edit over 2,000 pre-created quizzes tied to video content to effectively introduce, reinforce, review, and remediate subject matter for your students.

Lesson Plan Library

Get lesson plans correlated to Discovery Education *streaming* videos. You can browse by grade level or by five core subject areas.

Explore and Create

Resources to unlock students' imaginations

Writing Prompts

Bolster your students' composition skills by using the writing prompt generator to combine text-based prompts with any image within Discovery Education *streaming*. Create your own, or use the library of 500 pre-created writing prompts to encourage students to expand on a subject using the written word.

Interactive World Atlas

Explore the world through an interactive atlas that includes country information and engaging videos from sources like Discovery ATLAS.

Support You can Count On

Discovery Education is passionate about putting Discovery Education *streaming* to work for you fast and effectively. For this reason, we've created a Discovery Education support network to provide you with varied and extensive tools to help you use Discovery Education *streaming*. Because our success depends on yours, we offer support from all sides – the [Account Services](#) team, the [Discovery Educator Network \(DEN\)](#) and [Professional Development](#).

“You provided exemplary days of training and support for the chairpersons who attended Discovery Education streaming training this week...Our science instructional officer said two staff members told her the day was the best staff development day that had ever been planned for them or that they had ever attended. The entire group gave us the same feedback.”

Barbara S. Camp,
Associate Director
Klein Independent School District, Klein TX

Guidance Support

Account Services

Discovery Education is passionate about providing support to Discovery Education *streaming* customers. We can provide your team with the resources and guidance needed to effectively promote student achievement using digital media. Resources include:

- › Materials to help with a swift, effective launch and roll out of Discovery Education *streaming*
- › Technical advice to help you get the most out of Discovery Education *streaming* with your technology infrastructure
- › Support materials for advanced users of Discovery Education *streaming*
- › Guidance on how to maximize the value of our professional development resources

Community Support

Discovery Educator Network

As a Discovery Education *streaming* user, you will have access to the Discovery Educator Network (DEN), a global community of educators who are passionate about the power of digital media. As a Discovery Educator, you will be able to collaborate and share resources with other DEN members who are working together to inspire other teachers with new ways of integrating multimedia resources into classroom curricula.

- › Share ideas, resources, and best practices through online discussion boards and blogs
- › Network with educators with similar instructional technology interests
- › Find out about exclusive Discovery events and contests
- › Preview new Discovery Education products and services

Visit Community.DiscoveryEducation.com to learn more.

“Wow. I attended my first DEN event yesterday. I know the way many people feel about workshops, but this one was so cool! I took tons of notes and felt like my head was going to explode from all of the awesome ideas I had following the sessions. All I can say is it will be a wild ride being part of this learning community if this is what all the events are like!”

Thomas Allison
Fort Clarke Middle School, Gainesville, FL

The screenshot shows the Discovery Education Streaming website interface. At the top, there are navigation links for 'My DC', 'DE Streaming', 'DE Science', 'DE Health', and 'Educator Network'. A search bar is present with a 'GO' button. Below the navigation, the page is titled 'Professional Development' and is divided into several sections:

Scientifically Proven

Discovery Education *streaming* is proven to increase student achievement, and helps schools meet the requirements of No Child Left Behind (NCLB).

Discovery Education *streaming* is the only educational digital-video-based learning resource scientifically proven to increase student achievement.

The data are compelling. Two random-assignment, control group studies — one conducted in rural Virginia, the other in urban Los Angeles — revealed significant improvement in social studies, science, and math performance for students receiving instruction containing video content from Discovery Education *streaming*.

As a result of these evaluations, Discovery Education executives were invited to Washington, D.C., to convey the results to the House Committee on Education and the Workforce — and to present the findings at U.S. Department of Education Technology Summits and various state and national education technology conferences around the country.

We would be happy to tell you about them, too.

For more information, visit <http://caret.iste.org> or call **800-323-9084** and ask a sales representative for a complimentary copy of the evaluations.

More than one Solution

Discovery Education listens to educators, and we want to meet the needs of educational institutions of all types and sizes, so we developed technology solutions to make sure that your school can get the most out of Discovery Education *streaming*.

Local Host Solution

Local Host lets schools stream and download Discovery Education *streaming* content directly from their local server rather than from the Internet, eliminating concerns related to Internet connection speed. The complete Discovery Education *streaming* digital library is stored on a local server, and new content is automatically downloaded onto the server overnight so it's ready for use the next day. Users also can upload their own self-produced content, which is incorporated into the interface and viewable only by authorized users.

Network Manager Software

This enables greater local control over storage and distribution of content. The local server stores only those videos that teachers request, rather than all Discovery Education *streaming* content. With minimal management, installed software schedules downloads of selected Discovery Education *streaming* content to the local server during off-peak Internet hours. Because content is stored locally, this software allows Discovery Education *streaming* throughout the day without using Internet bandwidth.

Expand the Possibilities

Access more digital resources in more subjects with
Discovery Education *streaming* Plus.

Discovery Education *streaming* Plus extends the Discovery Education *streaming* video-on-demand library with a huge selection of digital resources from AIMS Multimedia, Clearvue & SVE, and PBS® in addition to Discovery Education *streaming*.

CLEARVUE & SVE

Thousands of resources extend Discovery Education *streaming's* scope and sequence coverage for all K–12 curricular areas, enhancing classrooms with even more rich, unique digital content that's appropriate for what you are teaching.

Thousands of video resources including:

- › McGruff's Kid Files, Teen Files, Real World Science, and Wild World Phonics
- › Rabbit Ears, INTELECOM, Weston Woods, Goldhil, Globe Trekker, and more
- › Ken Burns and NOVA specials

Thousands of audio resources including:

- › Famous speeches
- › Audio books
- › Foreign-language instruction
- › Poetry readings
- › Classical music
- › Sound effects and much more
