

Common Core Assessments Available from Discovery Education

Since 2000, Discovery Education ASSESSMENT has supported schools across the country by providing state-specific interim assessments aligned to state standards, ensuring teachers have the most accurate data available to predict end of year success. Now, Discovery Education continues its commitment to offering tightly aligned, up-to-date tools by offering Common Core interim and formative assessments, supporting state and national initiatives to create high-quality standards that lead to student academic success. Discovery Education will continue to offer both Common Core and state-specific assessments, helping educators maintain choice by offering standards that best meet local needs.

- Interim assessments aligned to Common Core standards
- Assessments available for grades 3-8
- Common Core items also included in Progress Zone — 65,000+ question item bank teachers can use to create, share, and administer formative assessments
- Dual Common Core and State Specific standards and reporting available during the transition period (for select states)
- Common Core aligned digital resources also available
