**Science Techbook** brings the digital world to life with engaging content, lesson plans and custom professional development designed to save teachers time and ease the transition to digital learning. Science Techbook supports all types of teachers, from technology neophytes to digital natives. With video, virtual and hands-on labs, simulations and leveled reading passages, Science Techbook is the spark that will ignite every student's curiosity in science.

- » Drive higher student achievement through a research-based instructional design that is aligned to Ontario Curriculum Expectations.
- » Custom professional development makes the transition to digital and STSE resources as easy as possible.
- » Dramatically lowers district costs while increasing student achievement.

**Enhanced literacy support** includes the groundbreaking Interactive Glossary and leveled reading passages to increase student comprehension.
