Enhancements Help Students, Teachers, and Administrators Improve Teaching and Learning

Student Center – Increase Student Engagement

Boost student usage and understanding through updated design and functionality.

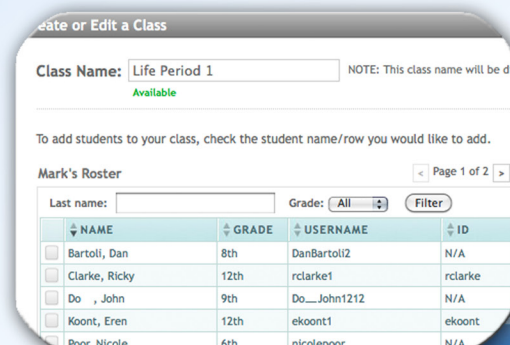

- New homepage design and browsing functionality lets students find all assignments and assessments faster
- Students get started more efficiently with an updated login page and new getting started tools

Classroom Manager – Help Teachers Save Time

Foster student achievement through new tools that help make using digital resources and assessments easier.

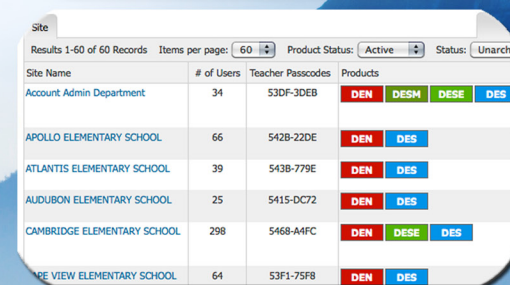

- Easier creation of classrooms — importing multiple students at once — lets teachers focus on students
- Faster and more effective ways to manage student assignments help keep all students on track

Account Admin – Support Your Administrators

Make ongoing management of districts and schools easier through updated administrator tools.

- New, bulk import tools help administrators upload, export, and manage students and teachers throughout the year
