Discovery Education MediaShare

Discovery Education MediaShare

Discovery Education MediaShare is a web-based content sharing system that enables educators to utilize the best resources through uploading, sharing, managing, and distributing user-created or licensed-digital content.

Take Control of your Digital Resources

- Upload educator-created content and share across schools, districts, or even nationally

- Manage digital content with the flexibility to set sharing permissions to allow schools to share regionally, nationally or locally within a building or district

- Generate reports to understand usage patterns - uploads/downloads, content metadata, and more

- Map content to state curriculum standards

- Index and search digital content based on user-assigned meta-tags

### Consistent Content in All Classrooms

- Promote standardized course delivery within buildings or across regions

- Ensure only appropriate content reaches the classroom

- Leverage the best practices of all teachers

Configurations to Meet Your IT Needs

- Host the resources stored within Discovery Education MediaShare locally or upload them to Discovery Education servers

- Remote hosting creates efficiencies: Save costs on hardware and servers. Minimizes the need for technical management of locally-installed software

Access at School and at Home

- Remote hosting allows teachers and students to access content from home

- Allow teachers to focus on students instead of planning

- Optimize "Time on Task"
