

Experience an enhanced Discovery Education Streaming just in time for Back to School!

Discovery Education is committed to listening to our partners to improve Discovery Education Streaming with **new features and functionality.**

Teachers are busy.

We're providing an updated DiscoveryEducation.com that is **faster, more efficient, and more intuitive.**

- » Find resources faster and easier with an updated homepage.
- » Browse content by subject and grade.
- » Customize and manage your experience with an updated *My Discovery Education* page that centralizes your profile, preferences, and activities.

Finding information that supports your classroom instruction is critical.

Now you can **search easier and more effectively.**

»Use new content groupings — read, watch, listen, and interact — to quickly identify content aligned to Common Core State Standards.

»New “ADD” feature lets you save any asset to *My Content*, assign the asset to a student or class, or create a new assignment using the asset.

»Easily find and collect material in presentation view for later usage with new “QuickList” feature.

Access video faster, share it easily, and use it wherever you want.

We're adding new functionality that makes
Discovery Education Streaming video
more mobile and shareable.

- »Improved video quality
- »Optimized for tablet and mobile devices
- »Easily shared via social media
- »More closed captioned video available than ever
- »Encourages educators to share how they use assets in the classroom with new "Comment" feature
