

Inspire Students with Digital Content from Discovery Education

Powered by the #1 non-fiction media company in the world, Discovery Education combines scientifically proven, standards-based digital media and a dynamic user community, the Discovery Educator Network, in order to empower teachers and improve student achievement.

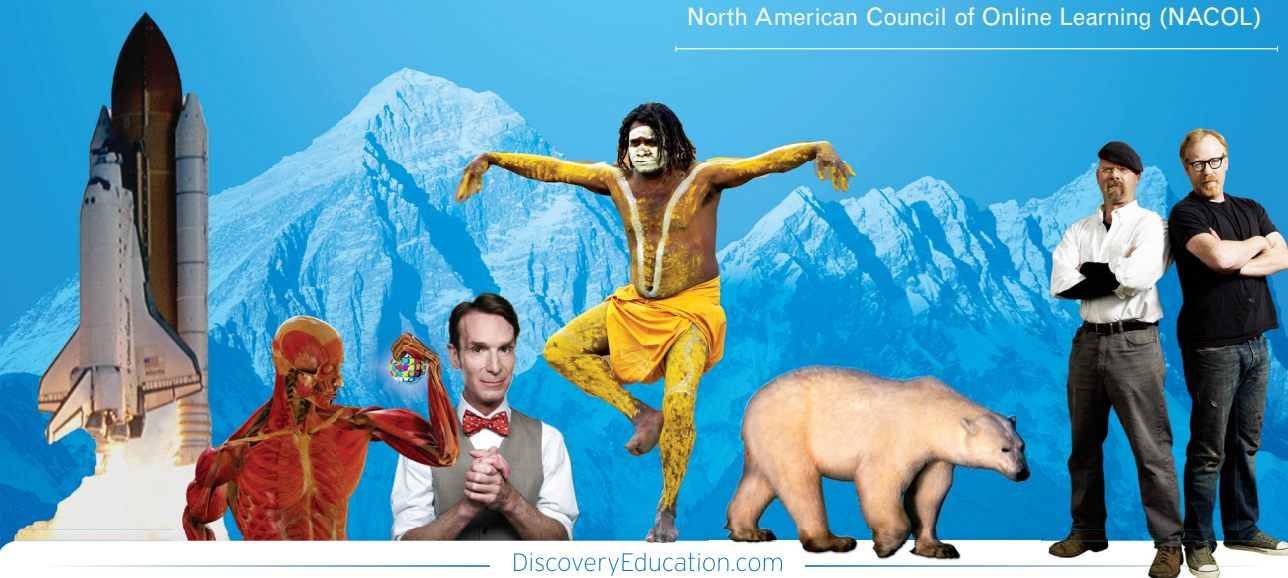

More than half of all U.S. schools already access Discovery Education digital services.

"Online learning is giving students a tremendous opportunity to gain skills and acquire knowledge they need for the future. The quality and depth of content offered by Discovery Education has helped us deliver courses that meet students' needs and expectations. Our partnership with them has benefited thousands of students across Florida."

Julie Young, President and CEO, Florida Virtual School

"When I have toured schools across the country, students and teachers alike rave about Discovery Education streaming videos both at home and in the classroom. These kids are absorbed in their learning – and they love having access to Discovery's network of content packaged for education...Research on Discovery's educational materials in mathematics show a positive effect – use of the multimedia clips are effective in teaching students math concepts. The quality is outstanding, and kids love it."

Susan D. Patrick, President & CEO, North American Council of Online Learning (NACOL)

Solutions for Virtual Schools

- › Up-to-date, award-winning content
- › Link directly to media - unique URLs for each asset
- › Single-Sign On capability

Discovery Education™ *streaming* Virtual School Edition

Integrate more than 125,000 multimedia components seamlessly into any curriculum. It is the only digital video-based learning resource scientifically shown to increase academic achievement.

Mathematics Media Pack:

Thousands of self-paced tutorials explain difficult-to-understand mathematics concepts from grades 3 through 12.

- › Math Overviews offer a guided walk-through of topics such as adding and subtracting using mental math.
- › Math Explanations demonstrate how to write and solve equations from word problems using order of operations.
- › Skill Builders enable students to explore mathematical functions.

Interactive Media Pack:

Hundreds of interactives develop and reinforce essential skills in a captivating and fun way.

- › Skill Builders boost problem-solving skills, enable students to practice with key concepts, and stimulate higher-level thinking.
- › Enliven core mathematical concepts with interactive brain games like Leon's Math Dojo.

Discovery Education Science

Deliver dynamic, up-to-date, high-quality content like eBooks, Virtual Labs, and Explorations in a flexible online format that will bring your elementary or middle school curriculum to life.

Discovery Education Health

14 research-based Health and Prevention programs featuring unique video, a library of K-12 lessons, digital manipulatives, and an interactive Body Atlas.

Discovery Education MediaShare

Discovery Education Mediashare is a web-based content sharing system that enables educators to utilize the best resources through uploading, sharing, managing, and distributing user-created or licensed digital content.

Discovery Education Assessment: *Progress Zone*

A bank of 50,000 K-12 selected response questions integrated with Discovery Education digital media to quickly identify video supporting class or student remediation. Subjects include Reading/Language Arts, Math, Science, and U.S. History.

Discovery Education Professional Development

Discovery Education offers a rich spectrum of professional development services to help educators make the most of digital media in the classroom.
