

Discovery Education Streaming Plus

Cross-curricular media content uniquely engages digital learners and supports the transition to the Common Core State Standards (CCSS)

Offering more than 155,000 digital media resources, Discovery Education Streaming Plus provides robust support for multimodal development:

- » Rich multimedia proven to increase student achievement
- » Instructional videos, skill builders, games, audio files, images, writing prompts, and encyclopedia articles

Custom-built solution helps support the transition to the CCSS:

- » New Common Core hub supports the three fundamental components of educational practice – curriculum, instruction, and assessment
- » Digital content helps students develop the critical skills necessary for effective implementation of the CCSS
- » Model lessons provide examples of how to integrate CCSS into the classroom and build educators' capacity to meet the expectations of the CCSS
- » Assessment measures student performance and empowers educators to make effective instructional decisions

Discovery Education Streaming Plus makes integration of multimedia easy for teachers:

- » Assignment Builder
- » Quiz Builder
- » STEM Connect
- » Lesson Plans
- » Teacher Center's Interactive Atlas
- » Student Access through My Classroom and Student Center
