

To access the Discovery Education Science Techbook for FCPS:

1. Go [to www.discoveryeducation.com](http://www.discoveryeducation.com)
2. For the Teacher View:
 USERNAME = fairfaxsdk8teacher
 PASSWORD = discovery
3. Once logged in, select the "Science Techbook" tab beneath the Discovery Education banner at the top of the page.
4. **IMPORTANT:** Once you are on the Techbook screen, click on the orange banner at the top of the screen that says "**Try Out the New Discovery Education Science Techbook**". **This view takes you to the updated Techbook 2.0 site, which FCPS is most interesting in evaluating.**
 - Techbook 2.0 includes the interactive text with highlighting and note taking, both saved to the individual student login. It provides read aloud functionality of text. There are several other enhancements to the user experience, all of which have resulted from suggestions from current users. Being digital, we intend to consistently upgrade the Techbook to meet our partners' evolving needs.
5. For review purposes, please note the orange tool bar in Techbook with "Standards of Learning" and "Model Lesson."
6. The third link on this bar is "Teacher Guide" which provides a thorough explanation of the Techbook.
7. We encourage all committee members to read this to ensure they are aware of the scope of instructional materials available to support teaching and learning. Below is a screen capture of the tool bar, highlighting important resource for review:

8. To view a short video of the Techbook in action in the classroom, go to:
