

**Dear Educator,**

As the leader in digital media-based learning, Discovery Education—powered by Discovery Channel—is proud to be included in your district’s adoption of instructional materials for science. **Discovery Education Science Techbook** has been custom built to meet Virginia’s Standards of Learning.

Discovery Education’s Science Techbook includes a rich array of educational assets. In addition to the comprehensive set of digital resources, the program also provides customized professional development, teachers guides, and resource DVDs. Outlined below are the additional services that are included in the base purchase price for each school that adopts the program.

## **Discovery Education Science Techbook for Grade K-8**

- **Cost for Grades K – 5 = \$38 per student:** One-time price for full, six-year adoption.
- **Cost for Grades 6 - 8 = \$40 per student:** One-time price for full, six-year adoption.
- **Cost for Grades 9 – 12 = \$55 per student:** One time price for full, six-year adoption.
- **Teacher Login:** Provides 24/7 access to the Discovery Education Science Techbook, from school or home.
- **Student Login:** Provides 24/7 access to the Discovery Education Science Techbook, from school or home.
- **Printed Teacher’s Guide:** Provides a “quick start” guide and an overview of program organization, assets and lesson plans to facilitate implementation. [up to 25 per building]
- **Companion DVD:** Provides direct, non-web access to all digital explorations and virtual labs. [up to 25 per building]
- **Professional Development:** Customized professional development to support Techbook implementation and the goals for science education in your district. Training enables teachers and students to maximize the wide range of resources available in the Virginia Techbook.
