

Exploration

STUDENT worksheet

Name _____

Date _____

Pollution Solutions

Overview

In this Exploration you will identify images of U.S. cities and drag them to the correct location on a map to discover how each of these locations is working to reduce pollution.

Questions

1. Name three major contributors to ground-level air pollution. _____

2. What is Atlanta doing to reduce pollution? _____

3. What source of pollution was mentioned by every community? _____

How to Use This Exploration

1. Read the Introduction and click the Continue button.
2. Roll the mouse over each photo to reveal the hint. Drag each to the correct location.
3. Read the outcome explanations as they appear and take notes.
4. Read the congratulations text. Note that the question posed is the discussion question.
