

Are You Thirsty?

STEP 1

Student 1 fills the device with water from the bucket. The object is to get as much water as possible.

STEP 2

Student 1 walks quickly to student 2 and fills the cup of student 2 to the line. Student 1 takes the cup and gives student 2 the device.

STEP 3

Student 2 walks quickly to student 3 and fills the cup of student 3 to the line. Student 2 takes the cup and gives student 3 the device.

STEP 4

Student 3 walks quickly to student 4 and fills the cup of student 4 to the line. Student 3 takes the cup and gives student 4 the device.

STEP 5

Student 4 walks quickly to the finish line and fills the cup to the line.

If at any point in the relay there is not enough water in the device to fill the cup, the person with the device must go back to the bucket and get more.
